NOTE 11 - PROVISIONS, CONTINGENT ASSETS AND LIABILITIES

Litigation

The Group is involved in lawsuits and claims that have been filed against, the total claims constituted by which, excluding reserved rights for claiming excess amounts, risk of litigation and interest, is EUR 4.911.514 as of 30 June 2025 (31 December 2024: EUR 5.093.269). These lawsuits and fines have been evaluated by the Group's management and a litigation provision of EUR 2.589.777 (31 December 2024: EUR 1.556.956) has been provided against claims for which management believes it is probable it will be required to make a payment.

Tax Inspection

The Company's VAT transactions regarding loyalty card practices in year 2018 have been examined in 2020. The Company have been notified with a report stating "no subject to be examined have been found" in May 2021. However the report evaluation commission has objected this verdict and EUR 51.165 (equivalent of TL 1.780.660) tax assessment has been declared to the Company. Against the assessment, the Company filed a tax lawsuit on September 6, 2021, the petition of the counter party was received on October 25, 2021 and the petition was answered on November 23, 2021. The 7th Tax Court of Istanbul decided to accept our case and reject all assessments on June 29, 2022, and the defendant Revenue Administration objected to the decision in August and submitted the petition of appeal to the Tax Court. The petition of appeal was notified to Company on September 28, 2022 and this petition answered within one month. Following the rejection of the opposite party's appeal, this time an appeal was made, and the defendant's appeal was served in April 2023. This petition was also answered by the Company within the time limit. The said lawsuit continues as of June 30, 2025. The Company has not recognized any provision in the consolidated financial statements in line with the opinions received from its lawyers regarding the aforementioned case.

Passenger Service Fee

T&T Havalimanı İşletmeciliği İnşaat Sanayi ve Ticaret Şirketi Limited filed three lawsuits against the Company before North Cyprus Lefkoşa Court of First Instance with claims of EUR 765.689, EUR 988.985 and EUR 475.031, respectively. All three lawsuits act on same claims and the airports no. 5/2013 whereby the plaintiff, as the operator of the Ercan Airport under North Cyprus Airports Services and Charges Law, claims EUR 15 passenger service fee for each Turkish Army Staff member traveling on the Company flights for the period between March 2013 and August 2020. Turkish Army Staff departing from North Cyprus are subject to an exemption from this fee under the law. The plaintiff's argument is based on the assumption that the Company has not carried any Turkish Army Staff members in this period of time. The Court of First Instance merged the first two lawsuits and rendered a judgment against the Company for a total principal payment obligation of EUR 1.679.114. No decision has yet been issued regarding the third lawsuit. The Company is of the opinion that it is legally impossible to obtain the requested documents related to the transported passengers from the relevant public authorities, and that the responsibility for implementing the requested additional inspections lies with the operating plaintiff. A legal appeal process has been initiated against the unfavorable first-instance court decision. In prior reporting periods, no provisions were recognized in relation to these cases, as the claims were not supported by concrete evidence and were based on unreasonable assumptions. Following the Company's appeal, upon the approval of the first-instance court's decision as of April 18, 2025, the payment related to the first two consolidated case files, amounting to a principal of EUR 1.679.114, was made together with interest and a provision corresponding to the claimed amount has been recognized for the ongoing third lawsuit as of the end of the interim period ended June 30, 2025.

NOTE 23 - NATURE AND LEVEL OF RISKS DERIVING FROM FINANCIAL INSTRUMENTS

Financial Risk Factors

Market risk

The Group's activities expose financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management plan focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures.

Foreign currency risk management

The Group has transactions in non-Euro currencies including Turkish Lira revenues, US Dollar borrowings and fuel purchases. These non-Euro denominated transactions expose the Group to foreign currency risk. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

Foreign currency risk management

Foreign currency sensitivity

The Group is exposed to foreign exchange risk arising primarily with respect to the US Dollar and Turkish Lira. The following table details the Group's sensitivity to a 10% increase and decrease in US Dollar, and TL. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated items and adjusts their translation at the period end for a 10% change in foreign currency rates.

NOTE 24 - FINANCIAL INSTRUMENTS (FAIR VALUE AND HEDGE ACCOUNTING DISCLOSURES) (cont'd)

Fair Value of Financial Instruments (cont'd)

The fair values of financial assets and financial liabilities are determined and grouped as follows:

- Level 1: the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices:
- Level 2: the fair value of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions; and
- Level 3: the fair value of financial assets and liabilities are determined by the input that does not reflect an actual data observed in the market while finding the fair value of an asset or liability.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AS OF 30 JUNE 2025

NOTE 26 – INCOME TAX EXPENSE

The Group is subject to corporate tax applicable in Türkiye. The corporate tax rate in Türkiye is applied as 25% for the 2024 taxation period. It continues to be applied as 25% for the 2025 taxation period. While calculating deferred tax on temporary differences, the Company takes into account the tax rates applicable at the date of closing of the temporary differences.

The tax expense components of 30 June 2025 and 30 June 2024 are presented below:

	1 January- 30 June 2025	1 January- 30 June 2024
Tax income/(expense)		
- Current tax expense	-	-
- Deferred tax income/(expense)	(41.463.402)	22.463.613
Total tax income/(expense)	(41.463.402)	22.463.613

The Group's earnings from investments tied to an incentive certificate are subject to corporate tax at discounted rates, starting from the accounting period in which the investment is partially or fully operational, until the investment contribution amount is reached. In this context, tax advantage amounting to EUR 247.447.504 (31 December 2024: EUR 203.282.895) that the Group will benefit from in the foreseeable future as of 30 June 2025 is reflected in the interim condensed consolidated financial statements as a deferred tax asset. As a result of the recognition of the mentioned tax advantage as of 30 June 2025, deferred tax income amounting to EUR 44.164.610 has recognised in the interim condensed consolidated profit or loss statement for the period 1 January - 30 June 2025.

Deferred tax assets are recognized when it is determined that taxable income is likely to occur in the coming years. In cases where taxable income is likely to occur, deferred tax assets are calculated over deductible temporary differences, tax losses and tax advantages vested in indefinite-lived investment incentives that allow reduced corporate tax payments. In this context, the Group bases the reflection of deferred tax assets arising from investment incentives in the interim condensed consolidated financial statements on long-term plans and evaluates the recoverability of deferred tax assets related to these investment incentives as of each reporting date. This evaluation is conducted based on business models that include estimations of taxable profits.

In the sensitivity analysis carried out as of 30 June 2025, when the inputs in the basic macroeconomic and sectoral assumptions that make up the business plans are increased/decreased by 10%, the duration of the foreseen period for recognizing deferred tax assets related to investment incentives remains unchanged.
